

Reliable Recovery, One Click Away

Data loss is a constant threat to all businesses. Whether you hit “Delete” on the wrong folder or clicked on a suspicious link, it’s only a matter of time before your data is compromised.

The question is: Can you recover before it’s too late?

With NAKIVO Backup & Replication, your data is always one click away.

#1 BACKUP SOLUTION FOR SMBS, ENTERPRISES AND MSPS

FAST

2X

Faster backup. Instant recovery for anything. Only 2 minutes to deploy.

AFFORDABLE

49%

Lower TCO, with multiple editions and licenses suitable for SMBs and enterprises.

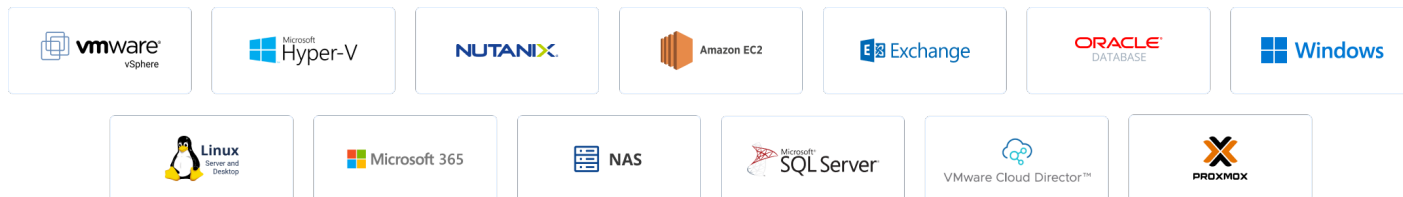

TOP-RATED

4.8

Average rating on top IT communities for exceptional user experience and functionality.

DATA PROTECTION SOFTWARE FOR ALL WORKLOADS

NAKIVO Backup & Replication delivers all-in-one backup, replication, granular restore and disaster recovery for virtual, physical, cloud, NAS and SaaS environments.

16,000+ BUSINESSES TRUST NAKIVO

NAKIVO Backup & Replication saved our IT team nearly 90% of the time we spent on data protection versus our previous solution.

David Gamidadze, System and Network Administrator, SILK BANK

We can now back up all our VMs, both the high IO ones (because the higher backup speed reduces the time it takes for a backup to complete) and the large archive nodes.

Simon Woodhead, CEO, Simwood

We are now able to complete a full backup for 100 virtual machines in 12 hours and recover backup data within just a few hours.

Jie Yang, System Engineer of Network Technology Team, Oriental Institute of Technology

YOU'RE IN GOOD COMPANY

Backup

Fast backup for all workloads (VMware, Hyper-V, Nutanix AHV, Proxmox VE, Amazon EC2, Windows, Linux, NAS, Microsoft 365, Oracle Database). Hybrid storage onsite, offsite and in the cloud.

Instant Recovery

Full and granular recovery options for any scenario, including instant VM recovery, file/object recovery, full VM recovery, P2V, V2V, VM recovery from tape and automated VM failover.

Ransomware Protection

Multi-layer security approach via immutable storage, air-gapped backups, backup tiering, encryption, malware scanning and strong access controls.

Disaster Recovery

Efficient VMware VM replicas with RPOs as low as 1 second. Run 1-click DR sequences for automated failover, failback and DR testing across diverse scenarios.

1 IT Monitoring

Full visibility, performance tracking and proactive troubleshooting with custom alerts and reports for your VMware vSphere environment.

2 BaaS and DraaS

Deliver excellent backup and DR services to a diverse customer base using the multi-tenant mode. Manage tenants, allocate resources and respond to alerts from the centralized MSP Console.

3 Flexible Deployment

Fast installation on Windows and Linux. One-click deployment as a VMware VA, Nutanix VA or AWS AML, or as a 5-in-1 backup appliance on NAS.

4 Outstanding Performance

Up to 2x faster backup, replication and recovery with 50% lower network load – featuring native change tracking, network acceleration, LAN-free transfer and more.

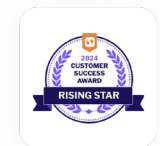

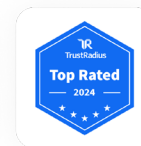

5 Excellent Support

24/7 Support with 98% satisfaction via chat, email, and phone.

6 Simple Administration

Multilingual web interface, step-by-step wizards and effortless automation.
